***These 3 elective units require specialized equipment. National Training Services staff will undertake an equipment check before enrolment and advise you of any required equipment that is not available.**

If equipment for any of these 3 units is not available on the work site, then National Training Services may be unable to undertake training and assessment in these units or complete the qualification unless alternative elective units can be agreed on or participants can undertake some of the equipment training off-site with NTS or with another provider that has the equipment. Contact National Training Services during business hours if you want to discuss any of these options.

Training undertaken with another RTO will be at the participant's own time and expense and a Statement of Attainment will be required by National Training Services before the scheduled completion of training so that the full qualification can be issued.
